YOUR VIEW OF OUR FACTORY IN WENZHOU

Information of the factory

- Located: Wenzhou city, Zhejiang province
- Certified: ISO 9001:2015, ISO 14001:2015
- Products: Cable Ties, stainless steel ties, and wiring accessories
- The time to start exporting: 1997
- The time to start in current plant: 2004
- The land size of current plant: 18,000m²
- The production, packing, storage, office size: 20,000m²
- Employee: 230
- Injection Machines: 52 sets (from 160T-800T)
- Current Production capacity: 500 Ton/month (25 x 40GP)

Raw material

- Awarded by Dupont from America as their golden customer
- Awarded by Ascend from America as their top rank customer
- Always promised with the top grade raw material for cable ties
- Promised with the 100% imported raw material

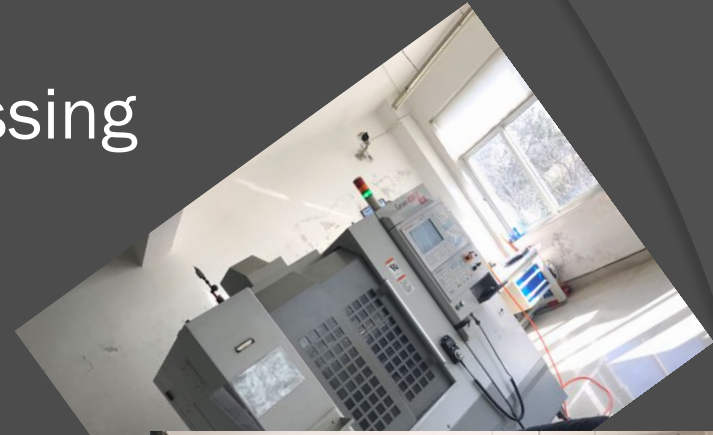

Remarks:

Since beginning of 2017, due to the raw material supplying shortage meeting in the market, we were starting to test new branded material including Rhodia, Invista, Radici as well

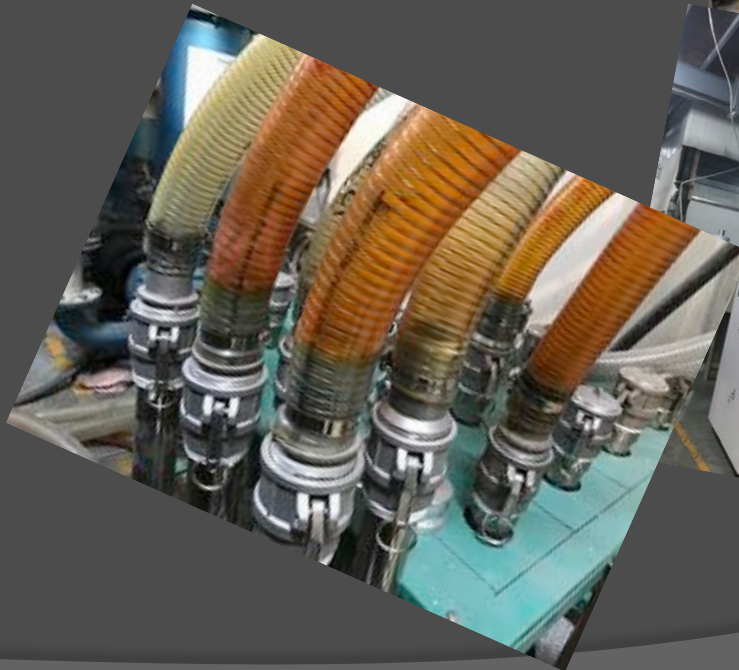

100% In-house mould processing

- Engraving and milling processing
- Grinding processing
- Wire cutting processing
- Low speed wire cutting processing (machine are branded from Swiss)
- Sparking and punching processing
- Mould setting up, repair, and maintenance in house
- Experience mould R&D engineers

Central Material Feeding System

- 2 lines of central material drying and feeding system for 2 production line
- By using the central material drying and feeding system, it could warranty the material dried and supplied to any machines in consistent
- Any orders, no matter to where, the quality will be in consistent

Plastic Injection

- ① 2 brands machines used, one is Haitian, the biggest injection machine brand in China, another is FCS, a branded of Taiwan
- ① 2 type of machines, Oil motor type and Electrical motor type
- ① All machines have been installed with robot
- ① Worker is only to pack the cable ties into the bag
- ① More than 50 sets of plastic machines on running
- ① Machines is from 160 Ton to 800 Ton
- ① Longest cable ties could be produced (48 inch)

Moisture & Packing

- The packing machine we are using, it is PLC computer controlled
- The packing machines invented by ourselves and we own the patent
- The packing machines has the function of inject water, air out, and sealing
- The machine could count the quantity of packs
- Automatic packing machine is under testing

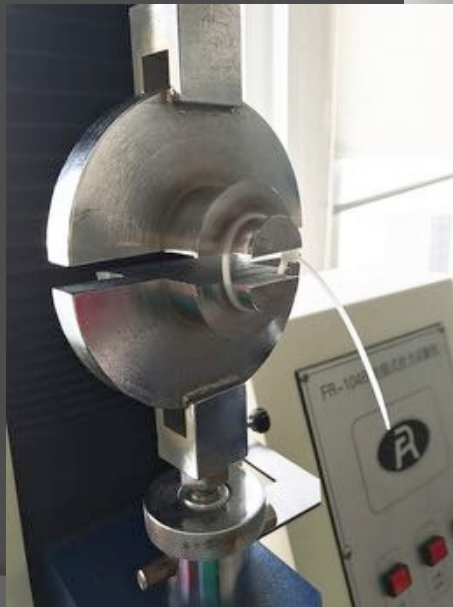

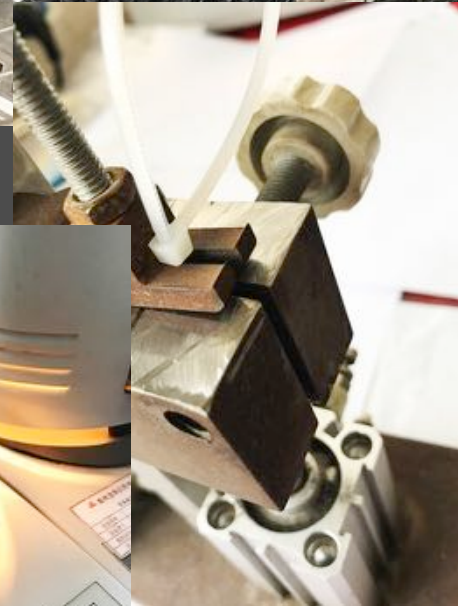

Warehouse

- A warmed up warehouse for winter time, in order to warranty the cable ties could absorb the moisture under right condition

Daily Testing

- Moisture Testing to protect the moisture added by right %
- Tensile strength testing to warranty the tensile strength are meeting the request
- Frozen testing, checking the ties whether could resistant the cold temperature
- Insertion Force testing, guarantee the cable ties could be inserted smoothly, and without extra force

UL approved Lab

- 2017, we invested the UL approved lab
- Standard: UL 62275 (same as EN62275,IEC62275)
- The testing results could be agreed by UL
- The Lab including full equipment of UL62275
Testing request
- The testing equipment including the testing for:
Flammability, smoking collection amount, tensile strength, aging, UV (Weather resistant), High-low temperature, punching, shocking for stainless steel cable ties, salt spray for rust,

YOUR VIEW OF OUR FACTORY IN XUANCHENG

Information of the factory

- Established in 2010
- Located: Xuancheng city, Anhui province
- Certified: ISO 9001:2008, TS 16949:2009
- Products: Cable Ties
- The time to start exporting: 2011
- The land size of current plant: 33,000m²
- The production, packing, storage, office size available yet: 10,000m²
- Employee: 140
- Injection Machines: 40 sets (from 250T-1250T)
- Current Production capacity: 300 Ton/month (15 x 40GP)

Plastic Injection

- 2 brands machines used, one is Haitian, the biggest injection machine brand in China, another is FCS, a branded of Taiwan
- 2 type of machines, Oil motor type and Electrical motor type
- All machines have been installed with robot
- Worker is only to pack the cable ties into the bag
- More than 40 sets of plastic machines on running
- Machines is from 160 Ton to 1250 Ton
- Longest cable ties could be produced (60 inch)

THE SALES DATA

2007-2017's sales

- 100% export
- Due to the raw material is 100% imported with duty and tax free, the cable ties we produced are only can be exported

unit of sales: Millions USD

Market Share

- >80% for USA and Europe
- More than 50 countries export to

Market Share

Top 10 Countries

- Africa
- Asia
- Europe
- S.America
- Australia
- America

*in 2016, we sell to 56 countries
